phone:
(702) 793 9654

Software development student with skills in HTML/CSS, JavaScript, Node.js, and MongoDB. Experienced in SCRUM, SEO, EDI maintenance, and advanced Excel (VLOOKUP, Pivot Tables, Macros). Proficient in SQL and data visualization, with a strong foundation in full-stack development.

PROFESSIONAL EXPERIENCE

RETAIL COORDINATOR *FRAME | August 2022-Present*

- Pioneered Retail Coordinator role, ultimately resulting in ~80% retail sales growth in locations once considered 'low performers'.
- Facilitated communication and collaboration between retail teams and management, fostering a cohesive work environment.
- Coordinated and managed schedules, meetings, and travel itineraries for the team, ensuring efficient use of time and resources.
- Assisted in preparing reports and presentations, providing valuable data for strategic decision-making.

PROJECTS

INTERACTIVE WEBSITE DEVELOPMENT *HTML, CSS, & JavaScript*

- Implemented responsive design principles to ensure compatibility across various devices/browsers.
- Applied best practices in web design & development.
- Created a user-friendly interface with interactive elements.
- Included dynamic content updates without reloading the page.

NON-RELATIONAL DATABASE CREATION *MongoDB, Postman*

- Designed and implemented a non-relational database using MongoDB.
- Utilized Postman for API testing and data management.
- Used schema designs for efficient data storage and retrieval.

API INTEGRATION IN WEB DEVELOPMENT *JavaScript, CSS, and public APIs*

- Integrated third-party APIs for dynamic data fetching and display.
- Implemented error handling and asynchronous operations.
- Improved user experience with real-time data updates and interactive features.

EDUCATION

Arizona State University December 2022

Bachelor's in Sustainability with a focus in Policy Analysis & Governance

Cum Laude • Dean's List • 3.8 GPA

CareerFoundry *Full-stack Web Development*
